COURSEWORK

GRADUATE

AWS & Cloud Computing

Python & DSA

webscrapping

Django & DRF

GitHub & Git

ReactJs & NextJs

WORK EXPERIENCES (2+ YRS)

YORK IE | SOFTWARE ENGINEER

Dec 2022 - Present | Ahmedabad, GJ

- As a full-stack Developer, I honed my skills in Django, DRF, and Python to create robust APIs.
- I collaborated with cross-functional teams, utilized Git and GitHub for version control, and contributed to multiple projects. I quickly adapted to frontend technologies like React.js and Next.js, enhancing user interfaces and resolving issues.
- My agile approach, code quality improvements, and adherence to project timelines were instrumental in the successful completion of various software projects.

TRIDHYA TECH PVT LTD | FULL STACK DEVELOPER

Aug 2021 - Dec 2022 | Ahmedabad, GJ

- As a software developer, I specialize in Python programming. In my recent role, I significantly expanded my skillset by diving into cloud computing using AWS Amplify, where I gained expertise in cloud-oriented technologies.
- I actively contributed to AWS Amplify projects, harnessing its capabilities to create efficient solutions. Additionally, I honed my expertise in integrating third-party services like Shopify, Aftership, Zappier, and HubSpot into our projects, elevating our applications' functionality and scope.
- My journey also involved exploring and learning incorporating various AWS services such as Lambda, S3, SNS, and SQS into our projects to achieve optimal results

SKILLS

SOFT SKILLS:

- Communication
- Problem-Solving
- Teamwork

HARD SKILLS:

- Python
- Javascript
- Aws Amplify
- Django & DRF
- Git & GitHub
- DSA
- MySQL

ACHIEVEMENTS

- Created two innovative Shopify apps, "Blustream Unboxing" and "Hovr," featuring intuitive drag-and-drop content functionality. Achieved this feat without prior experience in the Shopify ecosystem, resulting in increased user engagement and a boost in revenue.
- Led the WinStreakz project as the backend developer, harnessing Django Rest Framework to create a Google Play Store app, resulting in substantial user experience improvements and revenue growth.
- Spearheaded the frontend development of the pickleball.com project, resulting in a highly successful outcome and overwhelmingly positive user reception, elevating the brand to new heights.
- Actively preparing for AWS certification exam after completing AWS Solutions Architecture Associate course on Udemy by Stephane Maarek.

INTERESTS

- Product Management
- AWS
- Reading Books
- Chess
